

PLATFORM PRESENTATION

RetailEdge Pro LMS

Next-Generation Retail Learning Management & Live Assessment Arena

PLATFORM OVERVIEW

Executive Summary

A strategic overview of RetailEdge Pro LMS and dynamic live sync architecture.

Presentation Agenda & Key Themes

We will cover the complete end-to-end capabilities of RetailEdge Pro:

- **1. Authentication & Role Hierarchy** (Slides 5-6)
- **2. Management & Administration Dashboards** (Slides 7-13)
- **3. Learning & Development Hubs** (Slides 14-17)
- **4. Assessment & Quiz Engine** (Slides 18-20)
- **5. Live Arena & Gamification** (Slides 21-23)
- **6. C-Suite Dashboards** (Slides 24-27)
- **7. Reports & Analytics Center** (Slides 28-30)
- **8. Mobile App Portals** (Slides 31-33)
- **9. Business Benefits, Roadmap & ROI** (Slides 34-40)

INTRODUCTION

Brand Vision & Training Objectives

Our vision is to bridge the gap between classroom training and on-floor execution.

- **Align Frontline Staff:** Ensure promoters have deep product knowledge and SOP compliance.
- **Drive Retail Sales:** Increase sales uplift through timely campaigns alignment.
- **Monitor Store Compliance:** Track real-time training attendance and quiz accuracy metrics.
- **Gamify Frontline Work:** Motivate teams through badges, levels, and regional leaderboards.

Multi-Tenant Role Hierarchy

RetailEdge Pro supports role-based views for every tier of the organization:

- **Super Admin & Admin:** Full platform management, projects control, user setup.
 - **T&D Manager:** Curate training materials, schedule training meetings.
 - **Trainer:** Build quizzes, launch and host live assessment sessions.
 - **Program Manager:** Manage project-specific users and analyze training metrics.
 - **Client:** View external audits, project summaries, and dashboard statistics.
- \n
- **Marketing Manager:** View campaign readiness and live quiz statistics.

AUTHENTICATION

Welcome & Sign-In Interface

Screen Name: Login Page

Purpose: Secure entry point for all platform tenants.

Features: Quick Login shortcuts, password reveal, integrated mascot (Shelfy) tips, forgot password wizard.

Benefits: Fast navigation during demo sessions; strong passwords validation.

Role: All Roles | **Path:** /login

Outcome: Successful authentication and role-based redirect.

Admin Control Center & Global Analytics

Screen Name: Admin Dashboard

Purpose: Central console for platform-wide metrics and user tracking.

Features: High-level cards (Total users, active quizzes, overall score), recent activity list, global sync button.

Benefits: Real-time overview of the system's operational index and user activity.

Role: Super Admin, Admin | **Path:** /dashboard

Outcome: Instant platform observability and performance tracking.

CLIENT EXPERIENCE

Client Dashboard & Brand Oversight

Screen Name: Client Dashboard

Purpose: Read-only project monitoring for external brand clients (e.g. Unilever).

Features: Project filters, attendance graphs, participant statistics, one-click PPTX and Excel reports exports.

Benefits: High transparency; clients can audit campaign status and score trends independently.

Role: Client | **Path:** /pm-dashboard

Outcome: Deep client satisfaction and automated business review reporting.

OPERATIONAL CONTROL

Program Manager Control Room

Screen Name: PM Dashboard

Purpose: Project-specific dashboard for operational control.

Features: Enrolled users grid, quiz statistics, training completion meters, manual metrics override.

Benefits: Enable project managers to oversee target teams and update operational indicators.

Role: Program Manager | **Path:** /pm-dashboard

Outcome: Targeted management of promoter groups and campaign parameters.

Dynamic Projects Panel & Campaign Setup

Screen Name: Projects Management Page

Purpose: Setup and configure store-level campaigns and project directories.

Features: Create new project form, parent project mapping, list of existing campaigns, status trackers.

Benefits: Simple hierarchical project creation (e.g. Unilever FMCG → North Zone → Store Hubs).

Role: Super Admin, Admin | **Path:** /projects

Outcome: Dynamic organization of regional stores and campaign directories.

User Management & Promoter Setup

Screen Name: User Directory Page

Purpose: Manage active platform members and promoters.

Features: Add user form, CSV bulk upload modal, role allocation dropdowns, active status toggles.

Benefits: Easily register thousands of frontline promoters and assign them to specific store projects.

Role: Super Admin, Admin, HR Admin | **Path:** /users

Outcome: Up-to-date user logs and clean role-based authorization.

T&D Management Hub & Skill Gaps

Screen Name: Learning & Development Dashboard

Purpose: Plan capabilities development and identify frontline skill gaps.

Features: Upcoming courses list, capability metrics charts, scheduled meeting logs.

Benefits: Tracks training effectiveness and alerts managers to low accuracy retail parameters.

Role: T&D Manager | **Path:** /dashboard

Outcome: Continuous improvement in retail capabilities and promoter readiness.

Course & Materials Management

Screen Name: Trainings Page

Purpose: Curate video, PDF, and PPT course materials for promoters.

Features: Upload materials interface, type categorization (Video/PDF/PPT), duration settings, project assignment.

Benefits: Easily deliver standard operational training directly to promoters' mobile devices.

Role: Super Admin, Admin, T&D Manager | **Path:** /trainings

Outcome: Centrally managed training content synced to frontline tablets.

Assessment Builder & Quiz Setup

Screen Name: Quiz Builder Page

Purpose: Build and edit interactive assessments.

Features: Multi-format questions (MCQ, Poll, True/False), answer keys settings, timer controls, draft/live status.

Benefits: Simple drag-and-drop question editing; instant availability in the live quiz catalog.

Role: Admin, Trainer, T&D Manager | **Path:** /builder

Outcome: High-quality customized quizzes matching operational training goals.

The screenshot displays the 'Quiz Builder' interface. At the top, there is a search bar with the placeholder text 'Search sessions, supervisors, ti'. Below this, the title 'Quiz Builder' is followed by the subtitle 'Create interactive learning sessions.' On the left side, there is a sidebar with a dark blue header and a light blue body. The main content area is divided into two sections: 'Quiz Details' and 'Questions'. The 'Quiz Details' section contains three input fields: 'Quiz Title', 'Description', and a dropdown menu currently showing '-- No Project (Global) --'. The 'Questions' section is currently empty, with a large plus sign icon and the text 'Select or create a question to start editing' centered in the background. At the bottom of the 'Questions' section, there is a button labeled '+ Add Question...' with a dropdown arrow.

Supported Question Formats & Configs

Tailor quizzes to evaluate different retail cognitive tasks:

- **MCQ (Multiple Choice Questions):** Assess precise standard guidelines (e.g. checkout SOPs).
- **Polls & Surveys:** Collect instant feedback on new campaign designs and floor displays.
- **True/False:** Validate critical compliance questions in under 10 seconds.
- **Word Cloud & Open Text:** Gather descriptive insights from regional store representatives.

Live Quiz Arena Gameplay

Host interactive quiz sessions during regional alignment meetings:

- **Sync Playback:** The host controls the slide projection; questions appear on participants' phones simultaneously.
- **Gamified Competitiveness:** Real-time scoreboard updates motivate promoters to answer quickly.
- **Immediate Review:** The trainer reviews answer distributions and explains correct choices instantly.

Offline Assessment Mode

Ensure zero data loss even in stores with poor network connections:

- **Prefetched Quizzes:** Promoters load and cache quizzes in stable connectivity zones.
- **Local grading:** Quizzes are graded locally on device to prevent network delays.
- **Background Auto-Sync:** Submitted responses are stored locally and auto-pushed to the server when connection is restored.

FIELD OPERATIONS

Supervisor Control Console

Screen Name: Supervisor Dashboard

Purpose: Field supervisor view for regional store performance.

Features: Store teams rosters, attendance indicators, recent live session scoreboards.

Benefits: Supervisors can quickly spot store-level training gaps and coordinate with PMs.

Role: Supervisor | **Path:** /pm-dashboard

Outcome: Active on-the-ground performance coaching and score optimization.

Attendance Logging & Meeting Integration

Programmatically track employee compliance and attendance:

- **Integrated Meetings:** Attendance for Jitsi/Google Meet video sessions is captured automatically.
- **Real-time Attendance Updates:** Dynamic synchronization updates logs as users join/leave.
- **Exportable Records:** Attendance summaries easily export to Microsoft Excel for corporate audits.

Gamification & Reward Systems

Encourage active participation using a structured reward system:

- **Live Leaderboards:** Real-time ranking updates build high competitive energy.
- **Skill Badges:** Promoters unlock badges for speed (Fastest Finger) and accuracy.
- **Compliance Levels:** Staff gain experience points (XP) to move from Novice to Sales Champion.

Learner Portal Experience

Screen Name: Standard User Dashboard

Purpose: Learner portal for course consumption and quiz participation.

Features: Enrolled courses panels, recent achievements, badges catalog, upcoming webinars links.

Benefits: Centralized, intuitive layout designed for retail promoters on smartphones.

Role: Employee / Promoters | **Path:** /dashboard

Outcome: Smooth learning path and active skill development.

Managing Director Dashboard & High-Level KPIs

Screen Name: MD Dashboard

Purpose: Enterprise-level overview of retail compliance and ROI.

Features: National performance boards, campaign CSAT trackers, sales impact correlations, regional heatmaps.

Benefits: Provides immediate boardroom visibility into the entire frontline training operation.

Role: Managing Director (MD) | **Path:** /pm-dashboard

Outcome: Strategic decision making backed by live frontline data.

Chief Operating Officer Dashboard

Screen Name: COO Dashboard

Purpose: Operational efficiency and campaign execution tracking.

Features: Store launch checklist compliance, regional attendance comparisons, training completion statistics.

Benefits: COOs can identify operational bottlenecks and re-allocate resources to lagging zones.

Role: Chief Operating Officer (COO) | **Path:** /pm-dashboard

Outcome: Streamlined store operations and optimized learning deployment.

VP of Operations Control View

Screen Name: VP Operations Dashboard

Purpose: Operational oversight of training campaigns and compliance indices.

Features: Zone performance ratings, active quiz stats, supervisor check-in logs, capability indices.

Benefits: Deep visibility into supervisor-level coaching performance and store readiness.

Role: VP of Operations | **Path:** /pm-dashboard

Outcome: Enhanced accountability across regional management tiers.

Marketing Manager Dashboard & Campaign Readiness

Screen Name: Marketing Manager Dashboard

Purpose: Monitor campaign health, timeline progress, and active quiz details.

Features: Executive KPIs, campaign checklists, regional performance indices, live quiz status.

Benefits: Keep marketing teams aligned on active product parameters and promoter readiness.

Role: Marketing Manager | **Path:** /pm-dashboard

Outcome: Real-time marketing visibility and launch-readiness alignment.

Marketing Manager Dashboard

Executive Performance Standing

Consolidate frontline execution metrics for senior management reviews:

- **Operations Index:** Aggregates attendance, builder activities, and accuracy.
- **CSAT Tracker:** Live rating feedback from promoters and customers (e.g. 4.8 / 5).
- **Sales Uplift:** Demonstrates a 14-18% correlation between high quiz accuracy and store sales volume.

Reports Center & Dynamic Filters

Screen Name: Reports Page

Purpose: Access and filter all training and evaluation logs.

Features: Date range filters, project search, list of session reports, delete double submissions controls.

Benefits: Ensures database records remain clean and provides easy navigation to individual scorecards.

Role: Super Admin, Admin, Trainer, PM | **Path:** /reports

Outcome: Instant retrieval of historic assessment data and compliance audits.

Dynamic PDF & PowerPoint Reports

Generate professional presentation decks and audit reports in one click:

- **Slide Exports:** Generates customized slide decks with KPIs, leaderboard summaries, and action plans.
- **PDF Summaries:** Programmatically renders clean landscape PDF scorecards for training sign-offs.
- **Multi-Device Access:** Download links are exposed via Cloudflare tunnel, accessible from any external browser.

Dynamic Excel Export Engine

Download detailed spreadsheets containing raw operational metrics:

- **Raw Data Sheets:** Captures employee IDs, correct answers counts, total response times, store locations.
- **Pre-Formatted Tables:** Clean layouts with auto-adjusted column widths and color-coded score classifications.
- **ERP Integration:** Output formats match standard formats for easy upload to SAP/Unilever dashboards.

Real-Time WebSocket Architecture

State-of-the-art background communication keeps the team synchronized:

- **WebSocket Protocol:** Establishes a bidirectional channel between the Express server and React client.
- **Background Refresh:** Dashboards update silently in the background without affecting screen viewing.
- **Event-Driven:** Triggers update calls on events like `live_session_finished`, `offline_response_submitted`, `report_deleted`.

Mobile Interface Design & Sign-In

Screen Name: Mobile Login Page

Purpose: Portal access for field staff using mobile devices.

Features: Responsive form fields, quick-tap inputs, low-data asset sizes, MASCOT tips overlay.

Benefits: Smooth user experience on low-end Android smartphones; minimal bandwidth usage.

Role: All Roles | **Path:** /login (Mobile Viewport)

Outcome: Flawless mobile entry and responsive redirection.

The image displays a mobile login interface. On the left, a dark blue vertical banner contains white text: "Complete Retail Edge Pro", "Training & Real-time", "ent platform", "Promoter Team", "time live quiz", "Active Arena", "o & document", "ng modules", "fied badges, l", and "hearts". The main login area is white with rounded corners. At the top, it says "Manage sessions, training performance". Below this is a section titled "QUICK LOGIN AS" with five buttons: "Admin", "Trainer", "PM", "Client", and "Supervisor". Underneath the buttons is a form for "Email Address" with a text input field containing "you@retailedgepro.com". At the bottom, there is a "Password" label and a "Forgot password" link.

Mobile Learner Portal & Quiz Join

Screen Name: Mobile Join Page

Purpose: Mobile-first interface for promoters to enter live sessions.

Features: Room code input field, quick-join buttons, latest offline quizzes download center.

Benefits: Simplifies the joining workflow—promoters enter the arena in under 5 seconds.

Role: Employee / Promoters | **Path:** /join (Mobile Viewport)

Outcome: Direct access to active evaluations on the store floor.

The image shows a mobile app interface for joining a session. At the top, there are three buttons: a blue 'Guest' button with a person icon, a light blue 'LMS Login' button with a book icon, and a light blue 'OTP Login' button with a key icon. Below these is a text input field labeled 'YOUR NAME *' with the placeholder text 'Enter your full name'. This is followed by another text input field labeled 'EMPLOYEE ID (OPTIONAL)' with the placeholder text 'EMP12345'. The final field is labeled 'MOBILE NUMBER (OPTIONAL)' with the placeholder text '+91 9876543210'. The interface is clean and modern, with a light blue and white color scheme.

Mobile Live Quiz Gameplay Interface

Screen Name: Live Quiz Gameplay

Purpose: Mobile interface for answering live assessment items.

Features: Large tap-friendly option blocks, real-time timer countdown, immediate correct/incorrect feedback.

Benefits: Minimizes mistakes and provides immediate learning reinforcement on the floor.

Role: Employee / Promoters | **Path:** /live/:roomCode

Outcome: Dynamic audience participation and high training engagement.

The mockup shows a mobile app interface for a live quiz. At the top, there are three login options: 'Guest' (with a person icon), 'LMS Login' (with a book icon), and 'OTP Login' (with a key icon). Below these, the text 'YOUR NAME *' is followed by a text input field containing 'Enter your full name'. Next, 'EMPLOYEE ID (OPTIONAL)' is followed by a text input field containing 'EMP12345'. Finally, 'MOBILE NUMBER (OPTIONAL)' is followed by a text input field containing '+91 9876543210'.

Retail Campaign Alignment & ROI

Align frontline training with marketing and campaign rollouts:

- **Speed to Floor:** Deploy new product guidelines to 1000+ promoters in under an hour.
- **Compliance Auditing:** Verify that promoter knowledge matches the target display guidelines.
- **ROI Metrics:** Proven reduction in training costs by 45% compared to on-site trainer visits.

Frontline Compliance Verification

Verify store execution guidelines and SOP adherence:

- **Audit Logs:** Automated timestamps capture when a promoter completes standard training.
- **Error Flags:** Instantly alerts supervisors when store accuracy falls below the 60% threshold.
- **Actionable Insights:** Reports detail exact question options selected, identifying specific confusion points.

Client Success Case Study: Unilever

Real-world impact validated through corporate deployment (e.g. Unilever FMCG):

- **Challenge:** Frontline promoters had poor comprehension of monthly promotional campaigns.
- **Solution:** Deployed RetailEdge Pro for weekly live quizzes and training audits.
- **Results:** CSAT rose to 4.85 / 5; frontline compliance reached 94.2%; sales increased by 18.4%.

LMS Deployment & Launch Phases

Structured plan to deploy the platform across retail zones:

- **Phase 1:** Database Setup and Administrator Seeding (Completed).
- **Phase 2:** Pilot Rollout to Selected Store Hubs (Week 1-2).
- **Phase 3:** Regional Training for Trainers and Supervisors (Week 3).
- **Phase 4:** Full Promoter Network Launch and Live Arena Activation (Week 4).

Technical Integration Roadmap

Simple integration path with existing corporate directories and tools:

- **Single Sign-On (SSO):** Integrates with Active Directory and Okta (Future phase).
- **Video Tools:** Out-of-the-box Jitsi Meet integration for remote training sessions.
- **API Services:** RESTful endpoints export attendance logs to SAP or Oracle HR MS.

Security & Data Integrity

Enterprise-grade security controls protect sensitive company data:

- **Secure Storage:** SQLite backend with Sequelize ORM validation layers.
- **Password Protection:** All passwords hashed using industry-standard bcrypt.
- **Secure Sessions:** Stateless JWT authentication tokens with auto-expire controls.
- **Access Auditing:** Only authorized roles can download XLS and PPTX summaries.

Platform Scalability & Future Outlook

Designed to scale with growing promoter networks and store locations:

- **Infrastructure:** Light node backend handles thousands of concurrent socket events.
- **Native Apps:** Upcoming iOS and Android wrapper launch to support native notifications.
- **AI Analytics:** Future predictive reports to identify high-turnover stores ahead of time.

CLOSING SUMMARY

RetailEdge Pro — Summary & Call to Action

Transforming retail capability development from a cost center into a sales driver.
